Serving = 14 drops mixed with 2 oz. (1/4 cup) of a mineral free liquid (recommended: distilled water)

## Maintenance System Guidelines

- You must wait 1 hour between each serving. Servings can be taken once every hour or spread throughout the day.
- Always wait 3 hours after taking any medication before taking Cardio Renew. Wait 2 hours after taking other Supplements.
- Wait 1 hour after taking a serving of Cardio Renew before taking any medications, supplements or eating food.
- Take servings on an empty stomach. When possible, wait 1-2 hours after eating a complete meal - for snacks wait 30 minutes.
- During the Maintenance Program you can resume your regular Supplement routine. We recommend taking a daily Multi-Vitamin / Mineral supplement during a Maintenance System.
- Store bottles at room temperature ? shelf life is 3 years.
